GET RID of rats & cockroaches from your premises

- EFFECTIVELY REPELS rats & cockroaches
- CHEMICAL & TOXIC FREE
- SAFE FOR HUMANS
- SCIENTIFICALLY TESTED by a leading Australian university
- INDEPENDENTLY STUDIED by consultants over 2 years
- CONSUMER PROVEN since 1995
- ENVIRONMENTALLY FRIENDLY
- MULTIPLE AWARD WINNER

It is certified by the Australian Office of Energy as meeting all electrical standards, Cert No. CS6455N. 220/240 VAC 50 Hz 13 Watt. Pest Free uses less energy than a 13 watt light bulb and cost less than RM 4 per month to operate.

The existing electrical wiring in our premises emit a low electromagnetic field that is harmless to us and the pest. Pest Free operates by altering the existing electromagnetic field throughout the electrical wiring in your premises. This affects the behaviour of the rats and cockroaches, stress and drive them out. They eventually will leave our premises.

TYPES OF PREMISES	UNITS REQUIRED
Offices	1 unit per standard shop lot floor
Restaurant, Bakeries, Mini Market, Food Storage	2 units per standard shop lot floor

Each floor should be protected by different units as the wire is from different distribution board (DB). 1 Pro unit can cover up to 3500 sq ft. Commercial & Household units are also available.

USERS: Restaurants • bakeries • convenience stores • mini markets • cafes • pubs • clubs • pharmacies • offices and others.

Toll Free 1300 88 0938
30 days money back guarantee plus 1 year warranty

Inadequate Pest Free units installed at your premises may not achieve the desired results.
