Pest Free
41 Union Street
WICKHAM NSW 2293

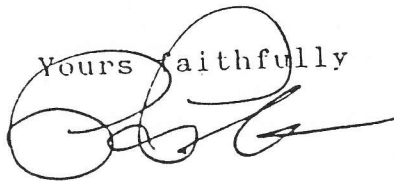

Dear Sir

We wish to report to yourselves in relation to the use of your product Pest Free for the minimisation of a cockroach problem we had at this Nursing Home.

We installed some ten (10) units in this Home in April 1996, and are pleased to advise that, according to Staff, all visible signs of cockroach infestation are now non-existent in the Home, due to the use of your product.

There is also a considerable saving to the Home in that we now do not have to use sprays as used previously, which also acted detrimentally to the health of some Residents.

Yours faithfully

Philip C Proctor
Proprietor
