To Whom It may Concern

Our Company TV Direct Thailand has been marketing and selling the Plug-In Pest Free Electromagnetic Pest Control product in Thailand for the past ten (10) years, achieving sales of 2,000 to 4,000 each month and it gives us much pleasure to endorse this Australian Designed and patented product to other Marketing Companies and Retailers.

The Pest Free product has been very popular in Thailand and our sales have increased each year, which shows how consumers have turned away from the use of chemicals used by traditional Pest Controllers in the control of Rats, Mice and Cockroaches..

We have always found the Australian company Pest Free Australia Pty. Limited. very professional to deal with, as is the proven scientific credibility the Pest Free Product offers consumers.

It gives our company much pleasure to fully endorse the Pest Free product to other marketing and retail companies.

Yours Truly.
