Dear Darren

SUCCESSFUL INSTALLATION OF PEST FREE COMERCIAL UNITS

Cessnock Correctional Centre was suffering significant rodent damage to electrical and security system cabling resulting in failure of some integral systems, not to mention expensive fault tracking and repair expenses.

Since installing the Commercial Pest Free units in 2008, rodent damage to integral systems has been eliminated.

Management at this centre will be installing further Commercial Units as the new 250 bed maximum security facility is commissioned early in 2012.

We appreciate your advice and active support of your product as we trialed and later committed to a number of the Pest Free Commercial Units around this centre.

Yours faithfully
