5 November 2010

To whom it may concern,

This letter serves to confirm that Flick Environmental Services (PTY) Ltd has been making use of the Pest Free Commercial and domestic plug in units for the last year.

To the best of our Knowledge the product seems to be effective in keeping target pests such as cockroaches and rodents away from the areas they are installed.

As far as we are concerned the products are an effective way of providing an alternative method in preventing pests from entering high risk and targeted areas of control, and it appears that the products are environmentally friendly and would possibly be of benefit in an environment that needs to conform to a HACCP programme.

Kind Regards

A handwritten signature in black ink, appearing to read "Stuart Steele", is written over a horizontal line.
